Misting operations

Most operations are scheduled between 0300-0500 but may vary. It is important to stow away all personal items and drinking cups.

Symptoms

–LM Space employees as well as vendors, are to self-check their symptoms prior to coming into the facility. **If a temperature of 100.4 is indicated, you are to contact your manager. If anyone feels they have been exposed to the virus they are to call their management immediately and wait for further instructions.** Temperature checking stations are located at all Bay Area locations; B/520 Lobby in Santa Clara, B/202 in Palo Alto and the Visitors Center in Sunnyvale. If required to quarantine due to pending test results, you may be put on the KNDS charge number.

Masks– Requirements to Wear Facial Coverings/Masks:

- It is generally expected that facial coverings be worn at all times, however, they can be temporarily removed when employees have at least six feet of physical separation.
- Facial coverings must be worn while onsite at any Lockheed Martin facility including but not limited to:
 - Hallways, Breakrooms and restrooms, Conferences, and meeting rooms; during transit through and in the facility; anytime personnel are in a common area/spaces where others are present or will be expected to pass by such as Office areas, Manufacturing floors and Labs.

Further information can be found on the attached link - <https://insidelm.external.lmco.com/coronavirus-information-and-resources-lockheed-martin-employees>

SANTA CRUZ TEST BASE UPDATE

NASA Fire Information for Resource Management System

Santa Cruz Test Base Update

– Today it was reported that 85,060 acres were burned. The fire is now 41% contained and more than 1100 structures have burned since the fire began on 8/16, of these 861 are single family homes. 28 employees were reported to have been deployed to Sunnyvale, Palo Alto and for SCF assesment and recovery effort. Employees not assigned who are from the Santa Cruz Test Base will be paid KNDS; this may be revised daily.

Important: No employees are to attempt to enter the Test Base. It is closed until further notice. Stay in contact with your leadership.

SCF Assessment

- Employees from ES& H, Maintenance and Plant Protection have been dispatched to assess the damage on site and secure it. On Sunday the extent of the damaged site and surrounding

infrastructure was reported to the employees on a Zoom conference set up by Site leadership and Labor Relations.

The Site and the surrounding communities are without power and drinkable water. PG&E has been installing new power poles and we are hopeful that there will be power in 3 weeks, the water district will be on site this week.

The Air quality has been terrible. The company has employed air scrubbers in the buildings to help remove the smell of smoke and to improve the working conditions within. The priority is to make sure the buildings are safe to work in and around. The building's rehabilitation will be prioritized by the amount of employees and productivity performed within.

The employees on the call and their leaders were confident and ready to get to work putting the facility back in service. Employees may be performing duties aside from their normal assignments to help with the effort. We will keep you informed as we learn more.

Communications – The Company will be setting up a share point for the SCF employees to access information on their own devices, ask questions, calendar of events, and receive notification of Zoom meetings. See the link below:
<https://insidelm.external.lmco.com/wildfire-updates-santa-cruz-employees>

Laptops may be available and Kiosks will also be set up for employees to access their accounts.

FEMA grants may be available for members affected, through the LM disaster relief fund. Information is accessible through LM people, you will have until **9/26/2020** to file a claim if you have expenses that fit the specific criteria. See the FEMA link below
<https://www.fema.gov/press-release/20200824/president-donald-j-trump-approves-major-disaster-declaration-california>

The following link is a resource an employee can use to find available community aide. It has been posted on the Inside LM page.
<https://www.santacruzcounty.us/fireresources.aspx>

If you have been evacuated and need lodging. Many of our members are still without housing especially those living west of Felton. The following link may help you and your families to get on your feet temporarily. There are some hotels close to Sunnyvale and San Jose. Of course, if you need time off and you have been assigned work, let your manager know that you may not be ready. If you need help call my number below and we will do what we can to help you.
