Misting operations Most operations are scheduled between 0300-0500 but may vary. It is important to stow away all personal items and drinking cups. October misting schedule was released today.

Covid Compliance Training - watch for covid compliance training in your self-learning plan within the next 2 weeks. Once in your queue, you will have 30 days to comply.

International Travel Alert – It was reported today that if employees go on personal travel outside of the United States, that they may be subject to self-quarantine without KNDS pay. Please review the LM website link below and read the quote received from Labor Relations, we will continue to discuss this with the company.

... Since pandemic-related conditions can change quickly, stay aware of any possible travel reason that could inhibit your ability to return to work after personal travel. Specifically, any travel, business or personal, to any [US](#) or [International](#) location with imposed travel restrictions, which may require an employee to self-quarantine for 14 days upon return from travel. Before traveling, consult multiple sources for updated information on potential entry restriction and follow [hygiene and prevention practices](#) during travel.

The link below contains all current information regarding company requirements during this health crisis:
<https://insidelm.external.lmco.com/coronavirus-information-and-resources-lockheed-martin-employees>

Symptoms –LM Space employees as well as vendors, are to self-check their symptoms prior to coming into the facility. **If a temperature of 100.4 is indicated, you are to contact your manager. If anyone feels they have been exposed to the virus they are to call their management immediately and wait for further instructions.**

Temperature checking stations are located at all Bay Area locations; B/602 SCTB, B/520 Lobby in Santa Clara, B/202 in Palo Alto and the Visitors Center in Sunnyvale. If required to quarantine due to pending test results, you may be put on the KNDS charge number.

Masks– **Requirements to Wear Facial Coverings/Masks:**

- It is generally expected that facial coverings be worn at all times, however, they can be temporarily removed when employees have at least six feet of physical separation.
- Facial coverings must be worn while onsite at any Lockheed Martin facility including but not limited to:
 - Hallways, Breakrooms and restrooms, Conferences, and meeting rooms; during transit through and in the facility; anytime personnel are in a common area/spaces where others are present or will be expected to pass by such as Office areas, Manufacturing floors and Labs.

Flu Shots – The flu season is upon us. [Click here for more information](#)

SANTA CRUZ TEST BASE UPDATE
NASA Fire Information for Resource Management System
Cal Fire incidents web site

Santa Cruz Test Base Update – the fire has been contained and there is no further damage reported, I will leave the LM wildfire link seen below until it is no longer necessary.

<https://insidelm.external.lmco.com/wildfire-updates-santa-cruz-employees>

Buildings opened - Buildings 601-1, 601-2, 602, 637 and 654, 601-3, 601-4, 632-2 and 632-3; some buildings are still red tagged. We will inform you as more buildings reopen for business.

Employees assigned to work at SCTB are able to drive their own vehicles into work. More of our members are being transitioned back to the Base and it was reported that a handful of employees are currently assigned to Sunnyvale for now. Most of the roads are now safe to travel on. The recovery process is continuing to proceed nicely.

Many of our members are working overtime, and it was discussed that our members working up until the evacuation was lifted will receive pay as outlined in Art 7 sec 6E. (8/26 – 9/12) depending on when payroll was run, you may be receiving the checks for the emergency response this week. I hope to be able to visit the test base within the next 3 weeks.

Try to stay in your assigned areas and don't tour the countryside; Some buildings are red tagged because they are still considered unsafe.

If you are required to purchase PPE such as but not limited to safety shoes – keep your receipts for reimbursement per the CBA.

The IAMAW Western Territory disaster relief - One of our members will be receiving a check this week, remember to contact me and fill out the form at the link below this paragraph. I will be available if you need me. District Lodge 725 will match any assistance received from the grand lodge. The time limit is 30 Days from occurrence. Please do not hesitate to call. See the link below:

<https://iamdocs.org/books/rddg/#p=1>

Communications – The Company has set up share point for the SCF employees to access information on their own devices, ask questions, calendar of events, and receive notification of Zoom meetings. See the link below:

<https://insidelm.external.lmco.com/wildfire-updates-santa-cruz-employees>

FEMA grants **The LM disaster relief fund deadline for filing for has been extended from 9/25 to 10/16/2020.** Information is accessible through LM people. Corporate leadership is responsible for reviewing the claims. **There will only be one claim per household, make sure you review your residence thoroughly before submittal, additional amendments will not be allowed.** Please reach out to us if you are not receiving a timely response and we will see what we can do. Payment after review and approval may take from 7 to 10 days.

Masks Are still available, see your steward

Preparing for Flu Season

by HR Communications — POSTED ON SEPTEMBER 1, 2020

STORY HIGHLIGHTS

- Regardless of your healthcare plan, all U.S.-based Lockheed Martin employees are eligible for free flu shots.
- As we continue to navigate COVID-19, we encourage employees who have not already been reporting to work on-site to seek a voucher to pursue a flu shot.
- International employees should check with their regional reward point of contact for information.

It's time for
flushots!

Similar to previous years, employees have three options available to ensure you receive your annual flu shot:

1. Download a [CVS/Walgreens Voucher](#), available between September 1 and November 30, 2020. Vouchers are available if you are working remotely or unable to attend a flu shot event. International employees should check with their regional reward point of contact for voucher information.
2. On-Site appointments are available from September 14 through November 30, 2020. Download [this form](#) to expedite your visit.

To schedule an appointment: access the [scheduling tool](#) and select the location and event you would like to attend (link is also available from the intranet > LM People > Pay and Benefits > Benefits > Destination Wellbeing).

3. Your Personal Physician or a Wellness Center.

Note: All Lockheed Martin health plans, including the LM HealthWorks Plan, cover the flu shot.

To ensure we remain vigilant during the COVID-19 pandemic, employees are reminded to follow CDC Guidelines and wear a facial covering, social distance, and ensure you wash your hands afterwards. Additional considerations include:

- Onsite Flu Shots: As we continue to navigate COVID-19, employees who have not already been reporting to work on-site are strongly encouraged to seek a voucher or other LM Health Plan covered method to pursue a flu shot.

If you elect to schedule an appointment onsite, you must complete your Consent Form in advance of your appointment and bring **TWO COPIES** of it with you on the day of your appointment. Medical cards are not required. Additionally, you are to arrive no sooner than two minutes before your appointment and you are required to return to your work area or your vehicle immediately after receiving your flu shot.

A flu shot remains the most effective way to prevent getting the flu and spreading it to others. Remember to practice good hygiene – wash your hands, regularly, stay home when sick, wear a mask, and keep social distancing.

To learn more, including answers to Frequently Asked Questions, visit the [Flu Shot page](#) of the Destination Wellbeing portal.
